## CHARACTER EDUCATION...

...more than a bandage.  
Don't just treat the symptoms -  
Immunize.

Are you spending a lot of your classroom time trying to ***stop the bleeding*** - addressing bullying, disrespect, family problems, dishonesty, aggression and more?

Get to the root of the problem with the AEGIS Character Education Program.

The Aegis Character Education Program works like a ***vaccination*** against the spread of poor social interaction and the risky behaviors in which children participate because of decisions made without a firm foundation of positive character traits.

AEGIS is a comprehensive, *research based* program created to give students (K-6) the skills needed to apply basic principles and ethical standards to real life, and it is core *curriculum integrated* to fit right in with what you are already teaching. Using our exciting lessons and memorable activities to model and apply ethical standards will help the children internalize positive behaviors.

You might be thinking, "When would I find time to teach character education to my students?" Research shows that teachers who use the AEGIS program have a dramatic reduction in time spent disciplining students. You will actually increase your teaching time and create a more positive learning environment!

Your prep time is minimal: everything you need to teach the AEGIS Character Education Program has already been prepared for you by experienced teachers and counselors. Games, reproducible student materials, stories, visuals, practice situations, and patterns are all included.

Let us help you implement or expand the character education in your school. The AEGIS Character Education Program is also a great fit for after-school or other youth programs.
